### Euclid Math Contest (Grades 11 and 12 only)

#### (University of Waterloo)

Before registering for the contest, please make sure you are able to have an adult supervise you at home on the day of the contest. The contest will be held on:

**April 7, 2021, 10:00 am to 12:30 pm for Cohort A (This is the last day of Rotation 4)**

**April 8, 2021, 10:00 am to 12:30 pm for Cohort B (This is the first day of Rotation 5)**

**Cost: \$16.48**

Steps to participate in the contest:

- Step 1: Pay for the contest via School Cash online. The cost is \$16.48. This is to cover the cost of marking. Registration will be begin on March 8, 2021 and will close on March 15, 2021. There will be no extensions.
- Step 2: The following week, you will be sent a Google Form. The form will collect your student number, ask for your name, and **ask for your cohort. It is imperative that you fill this form out correctly**, as this will determine which day you will be sent the contest. The form must be completed by March 22, 2021.
- Step 3: About 3 to 4 days before the contest day, you will be sent electronic copies of the Student Information Form, Solution Booklet, and Remote Supervisor Instructions via your school gapps account. Read the forms carefully. It is your responsibility to then print, accurately complete and return the forms. These forms will need to be returned, by regular mail, **by you directly to the University of Waterloo** after the contest. The mailing address is on the Remote Supervisor instruction form.
- Step 4: A few minutes before the start of the contest, you will receive an electronic copy of the contest paper from Ms. Sinatra. The contest will be held on April 7 from 10:00 am to 12:30 pm for Cohort A and April 8 from 10:30 am to 12:30 pm for Cohort B. **Students will write the contest remotely from home supervised by an adult.** These dates and times will coincide with a day when you are NOT scheduled to be at school for a face-to-face class. Please let your teacher know that you will be writing a math contest that day (this is especially important if your teacher requires you to participate in class when you are at home.)
- Step 5: After writing the contest, **you** will need to send back the Student Information Form, Solution Booklet, and anything else listed in the Remote Supervisor Instructions by mail through Canada Post. The University of Waterloo's mailing address is listed on the Remote Supervisor Instruction sheet.

The University of Waterloo and the RHHS math department have taken the time to create a method by which the contests can still run, because participation is most important to us. **Please respect these efforts and help keep the integrity of the contest. Do not discuss the contest with anyone from the time the contest commences to 48 hours after the contest is complete.**

Thank you for your cooperation!

Ms.Sinatra
