

How to Prepare for Summative Assessments

Date:

| What? | % of Final Mark | When? | What's on it? | How do I prepare? | What should I bring? |
|--|-------------------|--|---|--|--|
| <p>EQAO Assessment</p> | <p>5%</p> | <p>During last week of classes. Your teacher will announce the dates several weeks in advance.</p> | <ul style="list-style-type: none"> multiple choice questions longer problems requiring full solutions and sentence form explanations covers main concepts learned in grade 9 mathematics | <ul style="list-style-type: none"> read over all daily lesson notes after reviewing each lesson's notes, try a few sample problems from that night's homework assignment read over the definitions in your glossary sheets so that's you'll understand the questions on the test – if you encounter a word on the EQAO test that you don't know the meaning of, the teacher is not allowed to help you or explain anything to you! go to the Math Department website: www.rhsmath.ca there you will find links to samples of many past EQAO tests – try some of the questions from these practice tests – the answers are indicated with a * beside the correct multiple choice item <p>You might also choose to:</p> <ul style="list-style-type: none"> use the review sheets from the end of each unit work on "Course Review" sheets #1 – #7 at the end of your coursepack | <ul style="list-style-type: none"> pencil(s) spare leads eraser ruler scientific calculator pen & coloured pencils are optional |
| <p>Grade 9 Academic Final Examination</p> | <p>25%</p> | <p>The exam timetable will be published at the beginning of January and June.</p> | <ul style="list-style-type: none"> short answer questions full solution problems taken from all units of study in the grade 9 course | <ul style="list-style-type: none"> read over all daily lesson notes look back at each unit end test, re-do questions for these tests as a way of practicing the most important ideas from each unit make a personal formula sheet – go through your notes and make a single sheet of formulas – having all the formulas from the entire semester on one piece of paper makes them all easier to find and the act of re-copying them helps you remember – place this sheet in your notes with the glossary sheets or some other place which is easy to find – keep this sheet to help you study for the final exam work on "Course Review" sheets #1 – #7 at the end of your coursepack you will receive a practice examination to try in class during one of the review days – be sure to finish it at home, it is an actual exam from a past year | <ul style="list-style-type: none"> pencil(s) spare leads eraser ruler scientific calculator pen & coloured pencils are optional |
